- Speech & Language Development & Communication Skills
- Educational Technology & Digital Transformation Workflows

PROFESSIONAL LICENSE

Saudi Professional License: General Educational License | **Status:** Passed

PROFESSIONAL EXPERIENCE

Al-Furqan Private Schools

Saudi Arabia

Special Education Teacher — Autism | Current Position

Special Education Responsibilities:

- Instruct and support students on the autism spectrum utilizing tailored educational strategies, structured classroom environments, and visual supports.
- Develop, implement, and monitor Individualized Education Programs (IEPs) aligned with each student's cognitive, behavioral, and functional communication goals.
- Conduct continuous student assessments to evaluate learning milestones, adapt instructional delivery, and ensure targeted skill acquisition.
- Implement behavior modification techniques and functional behavior strategies to reduce interfering behaviors and encourage positive social interactions.
- Facilitate speech, language, and communication development through functional communication training and interactive social exercises.
- Collaborate with multidisciplinary teams, school administrators, and specialized therapists to maintain consistent, child-centered educational plans.
- Communicate regularly with parents to provide progress updates, reinforce home-based behavioral strategies, and build strong cooperative partnerships.

Additional Responsibility: Technical Supervisor

- Oversee educational digital systems and digitized administrative workflows to streamline special education documentation and student record management.
- Design and maintain structured digital dashboards to organize student attendance, IEP goal tracking, therapy session logs, and periodic progress reporting.

- Support teaching staff in adopting educational technology and AI-assisted workflows to optimize visual aid creation, lesson planning, and administrative efficiency.
- Maintain compliance with institutional data management standards while standardizing digital templates across special education workflows.

Key Project: Digital Transformation — Al-Furgan Private Schools

- Engineered and executed a digital transformation initiative across the special education department by transitioning paper-based documentation into streamlined digital workflows.
- Implemented centralized digital tracking systems for student attendance, IEP objective mastery, therapy logs, and diagnostic progress reports, providing teachers and administrative staff with efficient documentation tools.

Taqaddom Centre for Children with Special Powers

February 2021 – January 2024

Speech & Autism Specialist | Kafr El Sheikh, Egypt

- Delivered specialized individual and group therapy sessions for children diagnosed with autism spectrum disorder and developmental communication delays.
- Administered clinical speech and language assessments to identify articulation deficits, language delays, and communicative strengths.
- Applied Applied Behavior Analysis (ABA) principles and positive behavior support techniques to foster language acquisition and manage challenging behaviors.
- Designed structured interventions focused on improving receptive and expressive vocabulary, functional communication, and peer social interaction.
- Conducted regular parent training and counseling sessions to guide families on implementing speech and behavioral techniques within the home environment.
- Partnered with interdisciplinary clinical staff—including occupational therapists and psychologists—to align therapeutic objectives and track student development.

Hamza Academy

January 2023 – October 2023

Speech & Language Therapist (Training) | Egypt

- Conducted speech and language assessments under senior clinical supervision to analyze speech clarity, language comprehension, and communicative function.
- Assisted in designing and implementing targeted speech therapy plans for children presenting with language delays and phonological disorders.
- Facilitated interactive oral motor exercises and language stimulation activities to build functional speech mechanics and confidence.

Al-Ahrar Hospital

March 2019 – January 2021

Speech Therapist (Training) | Zagazig, Egypt

- Assisted clinical speech-language pathologists in performing diagnostic speech and language evaluations across pediatric and adult patient cases.
- Executed therapeutic exercises addressing articulation, fluency, swallowing difficulties, and oral-motor mechanics in a clinical healthcare environment.
- Coordinated with hospital medical personnel, including pediatricians and neurologists, to deliver multidisciplinary care for individuals with communication impairments.

PROFESSIONAL TRAINING & CERTIFICATIONS

- **ABAT — 40-Hour Training | Status:** ABAT Candidate (Currently Under Supervision)
- Applied Behavior Analysis (ABA) Training
- Oral Motor Therapy Training
- Sensory Integration Training
- Individualized Education Program (IEP) Development Training
- Behavior Modification Techniques Training

EDUCATION

- **Bachelor of Disability & Rehabilitation Sciences** — Zagazig University, Egypt
Specialization: Autism | Grade: Very Good (GPA: 3.28 / 4.00)

ADDITIONAL EXPERIENCE (SUPPORTING ROLE)

- Vodafone Egypt

 - Utilized active listening, needs analysis, and interpersonal communication to resolve customer inquiries and recommend communication services.
 - Demonstrated strong customer relationship management, negotiation, and conflict resolution skills in high-volume environments.
- Sales Representative
